Personal protective equipment includes all clothing and accessories designed to create a barrier against workplace hazards.

Personal Protective Equipment

- Head protection
- Eye protection
- Hearing
- Hand protection
- Foot protection
- Insulated rubber Gloves
- Insulated rubber sleeves
- Fall arrest protection
- Fire retardant clothing

Your PPE Is There to Protect

You and Your Family

Your company spends a lot of \$\$ on safety equipment.

Personal Protective Equipment

- Long sleeve shirts – buttoned at wrist
- Fire retardant clothing
- Insulated hard hats, eye protection, Rubber gloves & sleeves
- Fall arrest – harness and lanyard

Personal Protective Equipment

- Absolutely no clothing made from or containing blends of rayon, nylon, acetate, polyester
- NO rings, watches, jewelry or chains
- Remove coins from pockets

Personal Protective Equipment

Personal protective equipment must not be altered or removed even though you may find it uncomfortable.

Equipment may feel uncomfortable simply because it does not fit

Personal Protective Equipment

You must keep aware of the fact that the personal protective equipment

DOES NOT ELIMINATE THE HAZARD

If the equipment should fail, exposure will occur.

Personal Protective Equipment

To reduce the possibility of failure, the personal protective equipment must be properly fitted and maintained.

Personal Protective Equipment

Inspect it,

take care of it,

AND

most important of all

USE IT!!
